🎓 EDUCATION

Bachelor of Engineering in Computer Engineering. (B.Eng),
Federal University Oye-Ekiti [🔗](#)

2019 – 2023 | Ekiti, Nigeria

Relevant Coursework :

- Data Structures and Algorithms, Introduction to electronics, Circuit analysis, Signal processing, Engineering computing, Embedded systems, Computer networks, Programming principles, Computer architecture, Differential equations.

💡 SKILLS

Frameworks/Libraries/Programming languages : (Vue, Laravel, Node js, Express js, Firebase, GraphQL, JQuery, JavaScript, Typescript, PHP, Python.),

Infrastructure/Databases/Tooling : (GCP, AWS, SQL, MySQL, PostgreSQL, MongoDB, Oracle, Git, Docker, Kubernetes, Gitlab-CI.),

Data Structure and Algorithm : (Problem Solving.),

Personal (Soft) Skills : (Time management, Problem solving, Creativity, Teamwork, Critical thinking, Adaptability.)

💼 PROFESSIONAL EXPERIENCE

Software Engineer Intern - Remote, Tecklink [🔗](#)

04/2022 – present | Tbilisi, Georgia

- Worked with the Backend team, redeveloped 50% of existed Backend logics for web applications in PHP, MySQL, Ajax, into new ones, utilized Node.js, Express, MySQL and Restful APIs, which improved the speed and efficiency of the software applications by 10%, and received recognition for creative Backend logic design ideas and implementations in the first 4 weeks of internship.
- Worked on multiple software projects simultaneously and participated in the whole software development process from design to implementation and delivery using wide range of technological tools.
- Assisted the Frontend team in creating responsive and first-mobile approach for client's web application projects (E-commerce projects) using Vue js, Typescript, Vuetify, Vuex (state management tool)
- Wrote clean, robust, testable, reusable and sustainable codes for all Backend development and databases management processes.
- Studied data structures to implement approaches in handling simultaneous requests from multiple users and optimizing memory usage on developed software applications using Python in all cases.
- Received coaching and support from senior software engineers and gained practical experience in using Python and Java for problem solving.

Full Stack Developer, DSC

01/2020 – 01/2022 | Ekiti, Nigeria

- Worked within an agile team, contributed to 100% continuous software applications development, improvement and deployment (CICD).
- Developed and implemented rich user experiences by creating 30+ new features on clients software applications utilizing MEVN stack.
- Designed, developed, hosted and maintained responsive websites for clients and built static websites using modern technologies including Netlify, Vue, Vuetify, Javascript.
- Developed softwares and web applications, integrations with rest, soap and other APIs for social media logins, Google map, payment systems and other services.
- Integrated various payment system APIs for all client's e-commerce solutions including payment systems like Paypal, Flutterwave, Stripe.

Web Developer Intern, SQI ICT [🔗](#)

12/2018 – 09/2019 | Oyo, Nigeria

- Wrote frontend and backend code, integrated 5+ websites and web applications with frameworks like vue, laravel and APIs. Also, developed databases for the web applications.
- Built some great projects like Banking Applications, PWA Chat Applications, Management System for Schools and Churches using Web technologies like Php, AJAX, MySQL RestAPIs, JavaScript, Web sockets, HTML, Bootstrap, JQuery.

📁 PROJECTS

Selected projects :

FuoyeMarket, E-commerce platform for university students. [🔗](#)

11/2021 – present

- Founded, Developed, orchestrated the development of the software application components including Backend and databases.
- Organized a team of developers in maintaining and updating the software application for utmost productivity and effectiveness.
- Technologies Used : Vue, Node js, Express js, MySQL, Laravel, Vuetify, Javascript, RestApi.

The-mightgain, Freelance [🔗](#)

01/2022 – present

- Built the entire admin, clients dashboards. Integrated all payment systems / methods, maintained the entire platform including adding chat, social accounts, products and services. More than 500 active users.
- Technologies Used : Laravel, Php, MySQL, Bootstrap, JavaScript.

Speedyfame, Freelance [🔗](#)

03/2022 – 08/2022

- Built the admin, client, products, dashboards. Managed the entire activities on the platform. More than 500 active users.
- Technologies Used : Twig, Symfony, Php, MySQL, Bootstrap, JavaScript, RestApis.

📜 CERTIFICATES

• Web development Internship (Backend) [🔗](#)

• Frontend development Internship [🔗](#)

🌐 LANGUAGES

English

Full Working Proficiency.

Yoruba

Native.
